Sustainability Programs

Water Conservation Incentive Programs

Commercial
Restaurant Spray Valve Exchange Program

Restaurants in North Miami can reduce water consumption by exchanging existing sink spray valves with low-flow pre-rinse valves that reduce up to 80% of water use. The new Power Rinser valve can save businesses up to $1,300 per year. This spray valve is interchangeable with all brands and the fixture has a five year warranty. Bring us your existing valve to receive the Power Rinser Pre-Rinse Spray Valve.

Residential
Showerhead Exchange Program

Replacing your showerhead with a new high efficiency fixture can cut your water use in half. Bring us your old showerhead and we will give you a brand new, easy to install showerhead fixture.

Fixtures can be exchanged on site at this event!

Accepting Applications for the Green Business Rehabilitation Grant Program

The City of North Miami is providing a matching grant up to Five Thousand Dollars ($5,000) to help small businesses retro-fit their existing operations with the intent to reduce overhead energy costs, greenhouse emissions, and promote climate-change awareness.

Funds are available on a first come first serve basis.

For more details contact the Economic and Development Manager, Joseph Denis at the Community Planning & Development Department at 305-893-6511, Ext. 12164 or jdenis@northmiamifl.gov.
