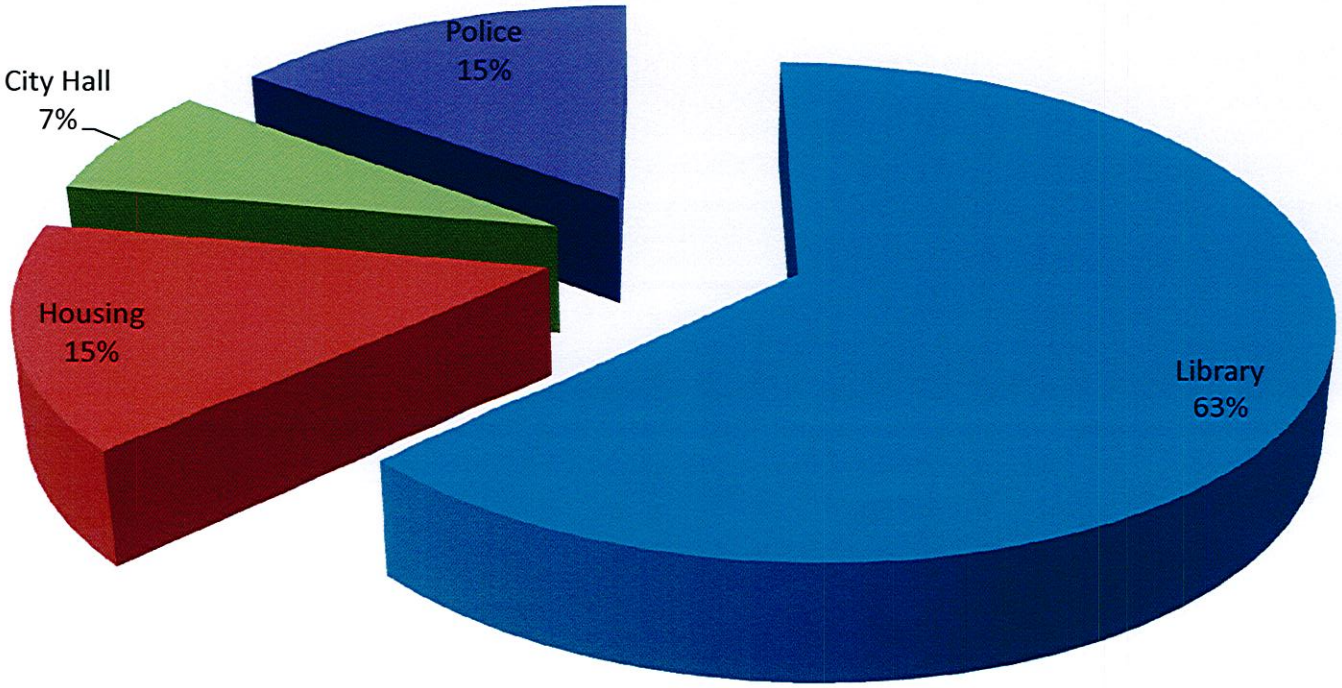
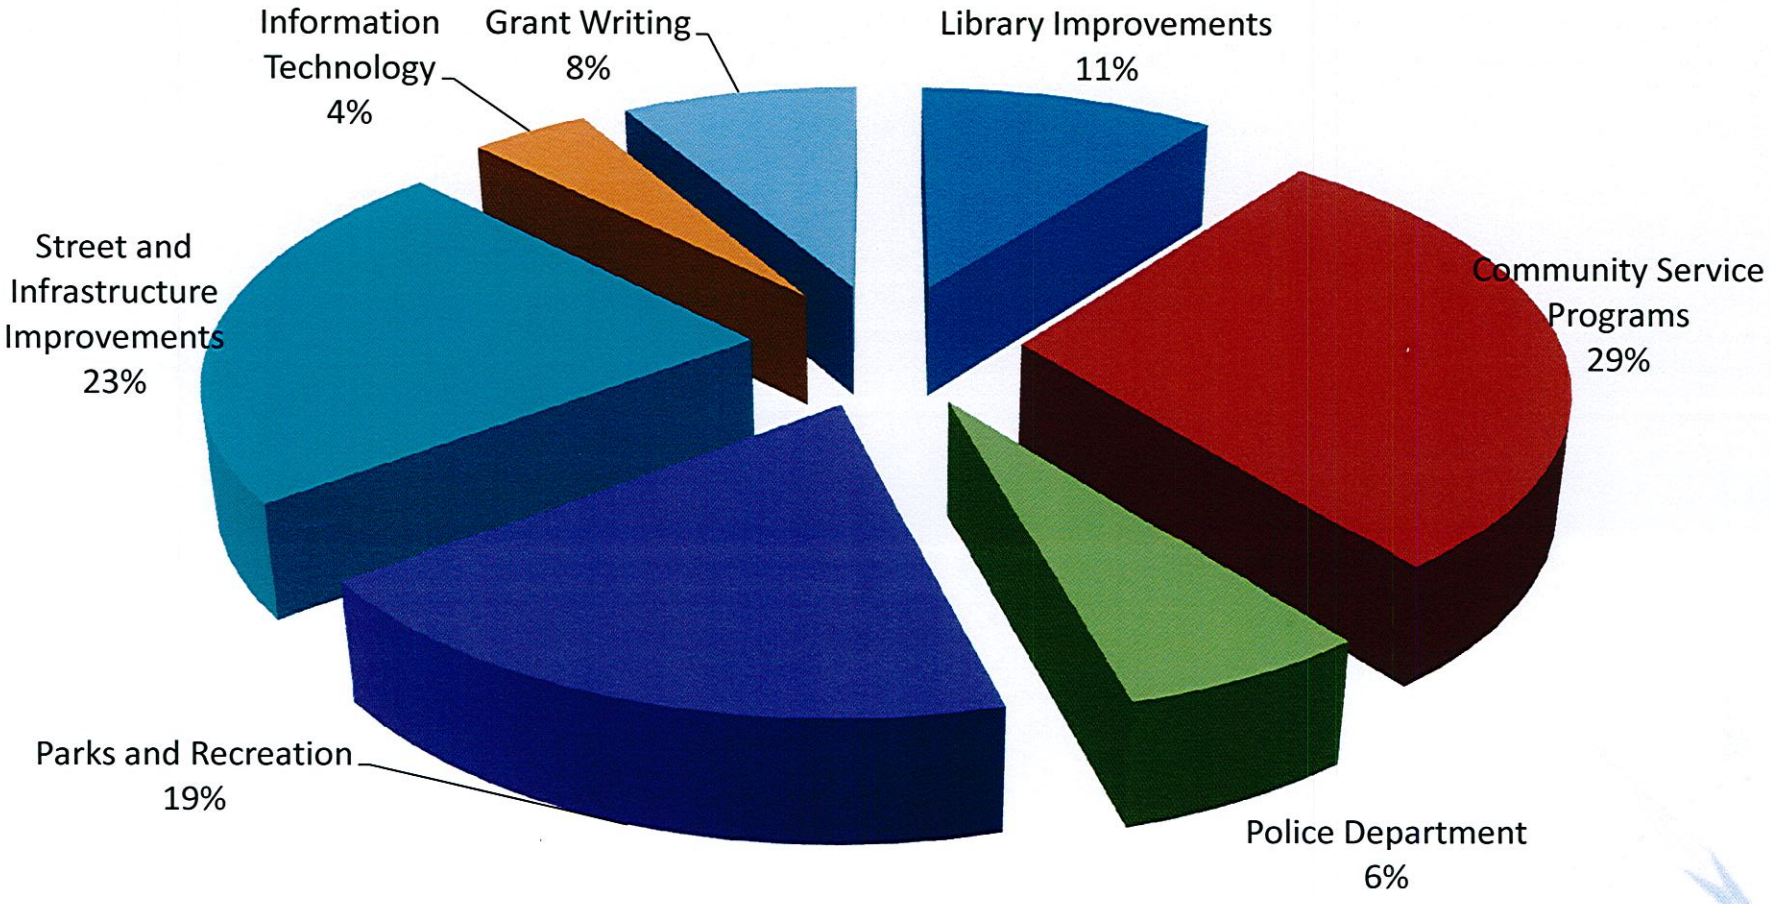
Background

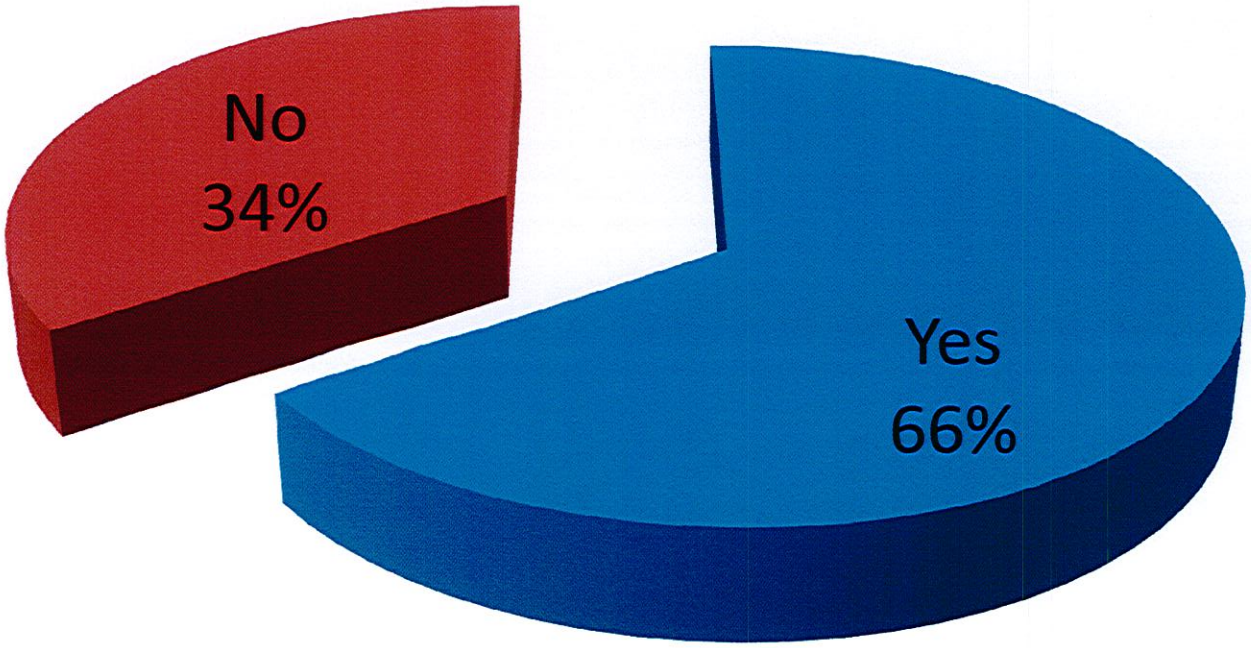
In an effort assure that the City allocates the revenue from the Biscayne Landing project in accordance with the desires of the City's residents, the City sought the input of its residents regarding the best use of the available funds. To that end, the City distributed a survey during the Biscayne Landing revenue allocation workshop held on January 15, 2013. This survey requested that the attendees rank the importance of certain proposed expenditures discussed at the December 11, 2012 City Council meeting. The survey also requested information concerning other projects that the City's residents would like to see implemented and gauged the residents' willingness to allocate additional Biscayne Landing funds to complete these projects. The following charts represent the results of this survey:

Please rank the items that were proposed at the December 11th City Council meeting in order of priority.



Is there another project that you would like to see addressed with the $2.5 million?





Do you think additional funding should be utilized from the Biscayne Landing funds, if needed, to complete the projects listed above?
