Credited service means the total number of years during which a member has served as an employee of the city, provided that credited service shall only be allowed for those years or portions of years for which required member contributions have been made, or during which the city has made contributions to the system on behalf of members in satisfaction of the members' mandatory contributions to the system; however, all service prior to May 1, 1956, shall not be allowed for service incurred during any period of time for which an employee has previously rejected participation as a member.

Members shall have the option to purchase credit for up to five (5) years of active governmental service with any governmental agency, subject to the following requirements:

(1) Members must complete ten (10) years of creditable service in the system before becoming eligible to claim such prior governmental service credit. A member must make a written election of this option within four (4) years of eligibility on a form provided by the city with such election accompanied by the documentation set forth in subsection (2) below, and an agreement that the member will pay the amount calculated pursuant to subsection (3) below at the time and in the form and manner set forth therein.

(2) To receive retirement credit for such prior governmental service, a member must submit with such written election an original or certified copy of a certificate of service from any governmental agency showing the date of entry into active service, date of discharge under honorable conditions and a statement that no retirement benefit was obtained or will be obtained as a result of such service.

(3) To receive retirement credit for active prior governmental service, a member who is an active employee of the city, must pay the cost thereof, including interest, upon advice of the plan actuary and approved by the board of trustees. The member's required employee contribution hereunder shall be picked up by the city pursuant to I.R.S. Code Section 414(h)(2). In the case of a member who ceases to be an active city employee prior to the total payment of all amounts due and owing under this subsection (3), all amounts which remain payable under this subsection (3) at the time of the member's termination of employment shall immediately become due and payable in one (1) lump sum.

(4) All prior governmental service credited under this section shall be treated, for purposes hereof, as credited city service. The benefit percentage per year of service as applicable for this governmental service is three (3) percent of final average compensation.
