

Biscayne Landing Addendum to
Questions & Answers from Pre-Bid Meeting

Q Who is the engineer of record for the groundwater remediation and whose conducting groundwater monitoring and gas monitoring?

A (Mr. Ghany) The engineer of record that we have the groundwater monitoring is actually CH2M Hill and their sub is ES Consulting. Groundwater...sorry, gas monitoring is being done by Quest. Actually he's in the back.

ES Consultants is the engineer of record for the groundwater remediation system. ES Consultants is contracted by the City to do the groundwater and gas monitoring onsite. Quest does the offsite/remote monitoring of gas sensors.

Q And who is the engineer of record for the landfill closure permit?

A (Mr. Ghany) The closure permit it also CH2M Hill.

ES Consultants is the engineer of record for the landfill closure permit.
