

False Alarm Program

City Ordinance No. 1317 requires that all homes and businesses register their alarm. False alarms divert emergency resources away from true emergencies, are a nuisance to the community, make your security system less reliable, and cost you and your community money.

You are our #1 priority

Did You Know?

- Three main causes of false alarms are: 1) user error, 2) installation/service errors, 3) equipment failure
- More than 80 percent of all false alarms are caused by user error
