SECTION 3.0

SCOPE OF SERVICES

3.1 BACKGROUND

The City of North Miami Community Redevelopment Agency (CRA) is requesting proposals from professional urban planning and/or architecture consulting firm (the “Consultant”) with expertise and demonstrated experience in transit station area planning in anticipation of the planned NE 125th Street Florida East Coast (FEC) Passenger Rail Station. The South Florida Regional Transportation Authority (SFRTA), in partnership with the Tri-Rail Coastal Link, the Florida Department of Transportation (FDOT), and the Regional Planning Councils (RPC) along the Florida East Coast, is in the final stage of a passenger rail service that will run along the FEC Railway. This rail service will improve access to multiple destinations within numerous municipalities, neighborhoods and activity centers along the FEC Railway. The area around NE 125th /123rd Street and the FEC Railway, which is located within the jurisdictional boundary of North Miami, was selected as one of the 28 potential station locations identified and analyzed by the SFRTA. As a result, the City Council passed and adopted on March 8th, 2016. Resolution No. 2016-R-29 in an effort to lend support to this SFRTA-led initiative. Through the recently adopted 2015 EAR-Based Amendments to the City’s Comprehensive Plan, the City Council further supported this initiative by calling for a transit center overlay within a quarter-mile of the planned FEC Passenger Rail Station. Said transit center overlay, which is to be regulated by Transit-Oriented Development (TOD) principles, shall promote compact, moderate- to high-density developments featuring a mix of uses in mutually supportive relationships. As part of that commitment, the City Council has further authorized the City’s administration to undertake all related planning considerations, including, but not limited to, the establishment of a transit station overlay land use designation and the development of a detailed station area master plan (the “Plan”) for the area around the planned FEC Passenger Rail Station, with a companion corridor plan that includes architectural streetscape designs for the major commercial Corridor (NE 6th Avenue, West Dixie Highway, 125th/123rd Street, and Biscayne Boulevard) which serve as tributaries moving vital goods and services to and from the central city, support the area’s vibrant downtown district and links the surrounding areas to the future FEC transit station area. Said designs will encapsulate all the recommendations set forth in the City’s Adopted Downtown Development And Major Corridor Plan which contains complete streets principles, standards and guidelines for transportation development and pedestrian-friendly streetscapes envisioned for the proposed transit Train Station Area and Major Corridor Plan area and supporting major Corridor. The end goal is to create an innovative, vibrant transit station with seamless linkages to the aforementioned commercial Corridor that all work symbiotically together to support future downtown redevelopment.

3.2 LAND USE CONTEXT

The entire NE 125th Street Passenger Rail Station Planning Area is within City Council District #2, potentially located at the intersection of the FEC Railway and NE 125th Street and consists of a quarter of a mile radius surrounding the potential location of the planned Train Station Area and Major Corridor Plan. According to the 2015-2035 Future Land Use Map (FLUM), the land uses within a quarter-mile of the planned transit station feature Low-, Medium-, and High-Density Residential, Commercial, Community Facility (Johnson and Wales University), Industrial, as well as Mixed-Use Low land use designations. The zoning classification of the properties within the station planning area are mostly consistent with the underlying land use. In addition to the base zoning districts, the area comprises parts of both the Arts and Design Overlay District (ADO) and Neighborhood Redevelopment Overlay District (NRO).

3.3 PURPOSE

The City’s as articulated through Objective 1.3 of the Comprehensive Plan, it is the City’s vision to establish Transit-Oriented Development (TOD) around premium station areas and Corridor to improve transit ridership, expand pedestrian access to stations, promote increased land values, and provide natural green spaces with a vibrant mix of uses and street-level activity. Policy 1.3.8 further adds that “the street network within TOD areas, and extending into the surrounding transit supportive areas where possible, should be designed as “complete streets” that are highly interconnected, multi-modal, and with strong emphasis on street-level design and superior transit and bicycle access and pedestrian quality” To that end, the City is seeking to procure the services of qualified and experienced Consultant to develop the aforementioned Plan for a planned N.E. 125th

/N.E. 123rd Street FEC Passenger Rail Station. The Plan will include architectural designs that will influence the future development of those properties surrounding the transit station area and along the City's major commercial Corridor. The Plan shall identify, leverage and maximize TOD opportunities, and demonstrate the potential of these opportunities in terms of capacity, density, detailed site design elements, integration into neighborhood structure, and principles for future TOD redevelopment around the station area.. The Plan should serve as a guide for public and private decision-making and investment in the coming years as it relates to land use changes, urban design, accommodations for mixed-use development, pedestrians and bicyclists, and associated improvements related to transportation, mobility and infrastructure associated with the station planning area. As such, the Plan is envisioned as a two part project with Part 1 involving the development of recommendations for appropriate land use, zoning, and description of the specific limits of the future transit station overlay area and a conceptual design of the future station area. Part 2 will include but not be limited to establishing architectural design plans depicting future redevelopment of pedestrian-friendly streetscapes for the aforementioned major commercial Corridor, in order to link, both economically and physically, the soon-to-be-designated transit station overlay district with the City's Downtown and these adjacent commercial Corridor. The future transit area development should serve to support and enhance the existing downtown areas; as such, determining the right mix of new residential and commercial uses and density allowances within the transit station overlay area is critical.

The Plan should particularly build on previous planning and study efforts, including, but not limited to, the 2005 Transit-Oriented Development Study, the 2013 Downtown Development and Major Corridor Master Plan (with complete street recommendations of the subject Corridor), the 2015 Parking Inventory and Needs Study and the Tri-Rail Coastal Link Station Area Market and Economic Analysis, City of North Miami Comprehensive Plan and the Land Development Regulations. It is the City's desire to create a Plan that speaks to the vision of a transit-oriented environment, one that fosters mobility, walkability, accessibility, greenspaces and that connects North Miami to rest of the region.

3.4 SCOPE OF WORK

The Consultant selected for the Plan shall demonstrate an understanding of integrated land use, transportation planning, complete streets planning, facility design, open space, bicycle and pedestrian planning, community-based planning, design of public spaces, multimodal transportation modeling and analysis, station access planning, transit-oriented land use, economic development associated with transportation, and community engagement. Consultant shall provide examples of expertise in visual simulations and demonstrate knowledge of Leadership in Energy and Environmental Design for Neighborhood Development (LEED-ND) analysis. The City and selected Consultant shall present the study and its findings to key stakeholders, and to the CRA Board, Planning Commission and City Council, in accordance with required legal mandates. The Consultant is expected to integrate relevant, completed and ongoing studies, into the final products prepared for the Plan.

In accordance with Policy 1.3.7 of the Goals, Objectives and Policies of the Future Land Use Element (FLUE) of the City's 2015 EAR-Based Comprehensive Plan Amendments, the vision for the Plan must include, but not be limited to:

Part 1 (Station Area Planning)

- Graphic illustrations of intended physical character of area;
- Recommendations for land assembly that may provide alternatives for station location;
- Expected transit mode and anticipated ridership;
- Existing physical conditions;
- Identify all major employers, residential developments, institutional/education uses, entertainment destinations, and other potential generators of concentrated ridership for the transit system;
- Potential for intensification and diversity of land uses around the station, including the creation of a community park and encouraging mixed-use;
- Any phasing of public investments that would aid in an orderly transformation toward transit-oriented development;
- Identification of park-and-ride facilities that are proximate to the transit stop that do not interfere with transit oriented development around the station;

- Market analysis and potential aggregated development program illustrating a preferred mix of uses to assist in the evaluation of individual TOD projects within the station area;
- Provide enough detail to serve as a basis for rezoning the station area into a form-based zoning district of varying intensities;
- Serve the local community facility (Johnson and Wales University);
- Provide incentives to help assure the feasibility of development and redevelopment; and
- Integrate the ADO that will enhance and promote the North Miami Public Art Program.

Part 2 (Corridor Master Planning)

- Review the recommendations of the Downtown Development and Major Corridor Plan to re-evaluate listed opportunities and constraints of each corridor and explore opportunities for linkages to the proposed transit station area.
- Conduct field observations of the Corridor to identify any urban design issues that should be addressed.
- Identify any recent transportation analysis at the state or local level or other related studies underway
- Develop a list of goals that the streetscape plan will be designed to achieve.
- Develop architectural scenarios, cross sections of at least one segment along each of the four Corridor, recommendations and priorities for each of the districts including: public improvements, land use recommendations and design issues.
- Product: Text, graphics and maps illustrating the zoning, land use and architectural design concepts for each of the Corridor.
- Assemble information related to special events and activities that take place within the public rights-of-way to determine how their needs (such as power, water, etc.) can be incorporated into the streetscape design.
- Assemble information from Public Works and Planning Department to identify current studies, projects and projects that are in the planning stages that may impact the streetscape plans (to be provided by the City).

In light of the foregoing vision of the Plan, the following is meant as an illustrative list of tasks that is not intended to be an exhaustive scope of work. Nevertheless, the Consultant may vary and expand upon this list, providing reasoning for any alternative approaches.

CONE OF SILENCE

Detailed Train Station Area & Major Corridor Master Plan for a Planned N.E. 125th/N.E. 123rd Street FEC Passenger Rail Station and Surrounding Corridor(s) RFQ 58-16-17

Sec. 7-192. Cone of Silence.

(a) Purpose and intent. The requirements of section 2-11.1, Cone of Silence Ordinances of the Code of Miami-Dade County, Florida, as amended, shall be applicable to the city. It is the intent of this code to prevent potential bidders, offerors or service providers from communicating with city department heads, their staff or selection and evaluation committee members during the period of time in which the cone of silence is imposed.

(b) Cone of silence is defined to mean a PROHIBITION on:

(1) Any communication regarding a particular RFP, RFQ or IFB between a potential offeror, service provider, bidder, lobbyist, or consultant and the city's professional staff including, but not limited to, the city manager and his or her staff;

(2) Any communication regarding a particular RFP, RFQ or IFB between the mayor, city council or their respective staffs and any member of the city's professional staff including, but not limited to, the city manager and his or her staff;

(3) Any communication regarding a particular RFP, RFQ or IFB between a potential offeror, service provider, bidder, lobbyist, or consultant and any member of the selection committee or evaluation committee;

(4) Any communication regarding a particular RFP, RFQ or IFB between the mayor, city council or their respective staffs and any member of the selection committee or evaluation committee; and

(5) Any communication regarding a particular RFP, RFQ or IFB between a potential offeror, service provider, bidder, lobbyist, or consultant and the mayor, City Council and their respective staffs.

(c) The city manager and the chairperson of the selection committee may communicate about a particular selection committee recommendation, but only after the committee has submitted an award recommendation to the city manager

and provided that should any change occur in the committee recommendation, the content of the communication and of the corresponding change shall be described in writing and filed by the city manager.

(d) Notwithstanding the foregoing, the cone of silence shall not apply to:

(1) Competitive processes for the award of CDBG, HOME, and SHIP funds and community-based organization (CBO) competitive grant processes, administered by the city;

(2) Communications with the city attorney and his or her staff;

(3) Duly noticed site visits to determine the competency of bidders regarding a particular bid during the time period between the opening of bids and the time the city manager makes a written recommendation;

(4) Emergency procurements of goods or services pursuant to section 7-144;

(5) Communications regarding a particular RFP, RFQ or IFB between any person and the director of the purchasing department or designee, provided the communication is limited strictly to matters of process or procedure already contained in the corresponding solicitation document; and

(6) Communications regarding a particular proposal, quotation or bid between the director of the purchasing department or designee and a member of the selection committee or evaluation committee provided the communication is limited strictly to matters of process or procedure already contained in the corresponding solicitation document.

Sec. 7-193. Procedure.

(a) A cone of silence shall be imposed upon each RFP, RFQ and IFB after the advertisement of said RFP, RFQ or IFB. At the time of imposition of the cone of silence, the director of the purchasing department or designee shall provide for public notice of the cone of silence. The director of the purchasing department shall issue a written notice thereof to the affected departments, file a copy of such notice with the city clerk, with a copy thereof to each city council member, and shall include in any public solicitation for supplies or services a statement disclosing the requirements of this ordinance. Notwithstanding any other provision of this section, the imposition of a cone of silence on a particular RFP, RFQ or IFB shall not preclude procurement staff from obtaining industry comment or performing market research provided all communications related thereto with a potential offeror, service provider, bidder, lobbyist, or consultant are in writing or are made at a duly noticed public meeting.

(b) The cone of silence shall terminate at the time the city manager makes his or her written recommendation of award; provided, however, that if the city manager refers the recommendation back to the director of the purchasing department for further review, the cone of silence shall be re-imposed until such time as the city manager makes a subsequent written recommendation of award. If the city manager rejects all bids or proposals submitted in response to an RFP or IFB and concurrently requests the re-issuance of an RFP or IFB, the rejected bids or proposals shall remain under the cone of silence until such time the city manager issues a written recommendation of award or until the city manager withdraws the re-issued RFP or IFB.

(c) *Exceptions.* The provisions of this code shall not apply to oral communications at pre-bid conferences, oral presentations before selection committees or evaluation committees, contract negotiations during any duly noticed public meeting, public presentations made to the city council during any duly noticed public meeting or communications in writing at any time with any city employee, official or member of the city council unless specifically prohibited by the applicable RFP, RFQ or IFB documents. The offeror or bidder shall file a copy of any written communication with the city clerk. The cone of silence shall not apply to small purchases or emergency purchases, pursuant to this code.
