Scope of Service:

With great gratitude, MJD Wellness and Community Center accepts the opportunity to apply for a grant. The generosity will bridge the inequity gap of the uninsured and under-insured, assuring that those residents in North Miami and its surrounding communities receive quality primary and behavior health care, regardless of their ability to pay.

The under-insured represent the largest vulnerable population, including those who do hold a health insurance policy, but the exorbitant cost of co-payments and/or deductibles hinder medical care. In addition, behavioral medicine is often limited under health insurance policies, with a cap of 10-12 visits per annual year. The total program cost is \$196,760. Warmly with the city grant of 9,000.00 we will assist 8 to 9 uninsured low income families for the annual year. For verification of income and status we are going to adopt the intake forms of Miami-Dade County as attached.

Goal 1: To be the safety net for the most vulnerable, assuring that every child receives mental health services regardless of their ability to pay. In the era of COVID, race tensions, school violence – too many of our young generation is falling through the cracks. While flags may be waived, families often shy away from treatment due to lack of health insurance or being under-insured.

Performance Indicator: Physicians notes, evaluation on 30-day basis with collaboration. Develop a survey via Microsoft Forms to determine the status of the ‘whole’ include body, mind, spirit and soul.

Outcome Results: Intake flow of referrals with collaborative indicators, resulting in catching the most vulnerable youth who might have fallen out of the safety net of care.

Goal 2: To improve the overall health of youth as the ‘whole’ from mind, body, spirit and soul

Performance Indicator: Develop a survey via Microsoft Forms for both patient and their families to determine change of mental balance at home, in school and within the community. The questions per survey will differ, and often times the survey with young patients will be conducted verbally by the clinician. Surveys conducted every 30 days for monitoring of progress or need to course correct.

Outcome Results: 90% improved result is the measurement standard upon completion of the treatment plan. The surveys will be individualized based on the unique needs of the patient to assure accuracy of measured result.

Goal 3: To assure mental health services to the uninsured and underinsured **Performance**

Indicator: The rate of clients served will be a clear indicator. Each family or guardian will have to fill out a financial aid request, indicating employment, earned income, detail of any health insurance, extenuating family circumstances.

Outcome Results: 100% result as all patients served must meet the criteria set forth of being in financial need

Per your request, the operational and program project is attached. The program will be sustainable with a mix of income streams, insurance reimbursement, program fees and philanthropy — grants, corporate philanthropy, private investors and individual gifts.
