EXECUTIVE SUMMARY:

The City of North Miami is a community of 61,420 (2014 Estimate) in Miami-Dade County, Florida and incorporated in 1927. The City of North Miami undertook the development of this plan in order to ensure a high quality of life that addresses the needs of its residents, and to continue to satisfy the requirements of the federal Americans with Disabilities Act of 1990.

As a municipality, the Government Services provisions of the American with Disabilities Act of 1990, or Title II, have the greatest impact on local municipalities, including the City of North Miami. Title II applies the requirements of Section 504 of the Rehabilitation Act of 1973, plus some new requirements, to all state and local governments. It is the City of North Miami's intent to effect full compliance with the ADA statutes.

The main purpose of the City of North Miami Americans with Disabilities Act (ADA) Transition Plan therefore is to develop policies and practices for implementing physical pedestrian improvements within the public right-of-way of the City. The goal is to provide safe and usable pedestrian facilities for all pedestrians, and to assure compliance with all federal, state and local regulations and standards. In particular, this plan provides the action items necessary to ensure compliance with ADA statutes based on the City's Self-Assessment evaluation.

As part of the development of this transition plan, the City undertook a self-assessment of existing facilities. This self-assessment found sufficiency in the City's provision of effective communication for meetings and in its employment policies. Further, the City should be commended for its actions in ensuring full access to public buildings and facilities.

The City of North Miami has some gaps in its infrastructure, including curb ramps, crosswalk and sidewalk improvements, which it is in the process of addressing to ensure compliance with ADA statutes. Through self-assessment, the City has identified some buildings and several intersections within the City which will require improvements to facilitate access to all citizens.

This plan thus lays out the actions necessary to ensure continued improvements to ensure ADA compliance as well as future considerations and policies related to the future development of facilities and continued monitoring.

To provide for a more accessible City for residents, workers, and visitors, the City of North Miami will:

- Incorporate the identified roadway, sidewalk, and public and city owned facilities projects identified in this self-assessment into its annually updated Capital Improvements Program and any updates to existing transportation plans.
- Review this plan's schedule of projects every six (6) months and monitor for potential opportunities to incorporate into the Capital Improvement Program.
- Monitor and update this plan's schedule of projects as they become completed, and when new needs arise, such as through review of facilities for any new City's annexations.
- Adopt new ADA notice and grievance procedures.
- Ensure ADA information notices are prominently and publicly displayed at these locations: City of North Miami, Town Hall, Public Information Boards, and Police Department, and ensure the posted ADA information is regularly updated as necessary.

INTRODUCTION

The City of North Miami has developed an Americans with Disability Act (ADA) Transition Plan to better serve its community and develop policies and practices for implementing physical pedestrian improvements within the public right of way of the City of North Miami. The goal is to provide safe and usable pedestrian facilities for all pedestrians, and to assure compliance with all federal, state and local regulations and standards.

The Americans with Disabilities Act (ADA), enacted on July 26, 1990, is a federal civil rights law that provides protection for all persons with disabilities against discrimination by public and private entities. The ADA extends similar earlier protections provided by Section 504 of the Rehabilitation Act of 1973. This legislation mandates that qualified disabled individuals shall not be excluded from participation in, denied the benefit of, or be subjected to discrimination under any program, service or activity. The Act also protects employees with disabilities, with certain protections and requires employers to make reasonable accommodations for applicants and employees with disabilities.

The ADA is divided into five parts, covering the following areas:

TITLE I: EMPLOYMENT

Under Title I, employers, including governmental agencies, must ensure that their practices do not discriminate against person with disabilities in the application, hiring, advancement, training, compensation or discharge of an employee, or in other terms, conditions and rights of employment.

TITLE II: PUBLIC SERVICES

Title II prohibits state and local government from discriminating against person with disabilities or from excluding participation in or denying benefits of programs series or activities to persons with disabilities. It is under this Title that this ADA Transition Plan has been prepared. The ADA Transition Plan is intended to outline the methods by which physical or structural changes will be made to affect the non-discrimination policies described in Title II.

TITLE III: PUBLIC ACCOMMODATIONS

Title III requires places of public accommodation to be accessible and usable by persons with disabilities. The term public accommodation as it applies to public agency refers to any privately funded and operated facility serving the public.

TITLE IV: TELECOMMUNICATIONS

Title IV covers regulations regarding private telephone companies, and requires common carriers offering telephone services to the public to increase the availability of interstate and intrastate telecommunications relay services to individuals with hearing and speech impairments.

TITLE V MISCELLANEOUS PROVISIONS

Title V contains several miscellaneous regulations, including construction standards and practices, provision for attorney's fees and technical assistance provisions. This plan provides the action items necessary to ensure compliance with ADA Statutes based on the City of North Miami Self-Assessment Evaluation.

The City has various responsibilities under Title II of the ADA. Title II of the ADA is similar to Section 504 of the Rehabilitation Act of 1973 but differs in that Section 504 applies only to government agencies that receive federal financial assistance. The purpose of Section 504 is to ensure that no otherwise qualified individual with disabilities shall, solely by reason of disability, be discriminated against under any program or activity receiving federal financial assistance. The City of North Miami has been operating under the requirements of Section 504 for many years.

The public entity also is required to designate a person to be responsible for coordinating the implementation of ADA requirements and for investigating complaints of alleged noncompliance. As such, the City of North Miami's designated ADA Coordinator is:

Name of ADA Coordinator:	Arthur H. Sorey, III
Title:	Deputy City Manager
City:	North Miami
Address:	776 NE 125th Street North Miami, FL 33161
Phone number:	305-895-9888
Email Address:	asorey@northmiamifl.gov
Fax number:	305-893-1367

ADA TRANSITION PLAN REQUIREMENTS

According to ADA, a public agency is required to prepare and ADA Transition Plan if physical or structural modifications to facilities are required to provide access to programs or services. Title II of the ADA Regulates government agencies, with its primary goal being to ensure that all their programs and services are accessible to individuals with disabilities. The ADA Transition Plan is limited to evaluating physical barriers: however, an analysis of the programs and services is important to determine what physical changes are necessary. The ADA Transition Plan documents what action the City will take to alter its facilities. The ADA requires that the ADA Transition Plan be submitted for public review before final approval and adoption by the appropriate regulatory agency.

Generally, the ADA Transition Plan lists existing barriers in the public rights-of-way under the City's jurisdiction, and schedules which barriers to remove to provide access for individuals with disabilities to the City programs. The City is required to provide access to all of its programs, but is not required to remove all architectural barriers in all of its facilities. In addition to making physical improvement, government agencies can choose from various administrative solutions such as relocating or modifying a particular program, to obtain overall program access.

The ADA Transition Plan is required by Department of Justice (DOJ) rules to address the following aspects of accessibility:

- 1) If a public entity has responsibility or authority over streets roads or walkway, this ADA Transition plan shall include a schedule for providing curb ramps or other sloped areas where pedestrian walks across curbs, giving priority to a walkways serving entities covered by the ADA, including State and local government offices and facilities, transportation, place of public accommodation, and employer, followed by walkways serving other areas.
- 2) The ADA Transition Plan shall identify physical obstacles in the public entity's facilities that limit the accessibility of its programs or activities to individuals with disabilities
- 3) The ADA Transition Plan shall describe the methods that it will use to make the facilities accessible: and
- 4) The ADA Transition Plan shall specify the schedule for taking the steps necessary to achieve compliance with the ADA and if the time period of the ADA Transition Plan is longer than one year, identify steps that will be taken during each of the transition periods.

PROGRAM ACCESSIBILITY

The Rules and Regulations of the ADA describe the requirements for program accessibility (Code of Federal Regulations, Title 28, Part 35, Subpart D). A public entity shall operate each service, program or activity, when viewed in its entirety, so that it is accessible to and usable by individuals with disabilities. The ADA does not require the public entity to make all its existing facilities accessible, nor does it require a public entity to take any action that would fundamentally alter the nature of a service, program or activity. Also, it does not require implementation of the ADA that would result in undue financial and administrative burdens. In such cases where documentation is provided in keeping with strict procedures outlined in the ADA, there are various methods that may be appropriate for providing programs accessibility in lieu of making actual physical changes to facilities.

The first step in determining what structural changes to existing facilities are necessary to develop an understanding of the specific public program and activities occurring at existing facilities within the City of North Miami. This section attempts to describe the programs and activities in the public right of way. It should be noted that this section is not intended to be a self-evaluation as described in the ADA. A self-evaluation includes an analysis of all programs and services offered by a public entity.

The activity of using the public right of way may be considered a program in two different ways:

- 1) Streets, sidewalks and curb ramps may be part of a continuous path of travel between activities or programs at various public and private facilities located on adjacent properties.
- 2) Streets, sidewalks and curb ramps may themselves represent a program or public pedestrian activities that are essential to the usage and enjoyment of a city's built environment.

The Department of Justice's Title II Technical Assistance manual point out that the a public entity's programs related to streets, sidewalks and curb ramps may be prioritized with respect to relative importance and frequency of usage. It further describes that program accessibility wouldn't require all streets, sidewalks and curb ramps to be fully accessible as required by current codes. A determination of what public rights-of-ways are programmatically required to be accessible may vary from jurisdiction to jurisdiction.

PUBLIC PARTICIPATION

The ADA states that a public entity is required to make available to applicants, participants, residents and other interested parties information regarding the ADA Transition Plan and its applicability to their services programs or activities of the public entity, and to apprise the public of the protection against discrimination afforded to them by the ADA. A public entity also is required to provide an opportunity for interested persons, including individuals with disabilities or organizations representing individuals with disabilities, to participate in the development of the ADA Transition Plan by submitting comments and making specific recommendations. The ADA also requires that a copy of the draft ADA Transition Plan shall be made available for public inspection during formal public review period.

A copy of this Transition Plan will be published on the City of North Miami WEBSITE and the public will be invited to provide comments. The plan will be updated, as needed, based on the comments received. Comments on the plan can be provided by the City's ADA Coordinator in writing by letter or email to jobrien@northmiamifl.gov, in person or via phone at 305-893-9883. The City of North Miami will maintain a log of all comments registered.

The City of North Miami used the Advisory Group method to encourage public input to develop the plan. The resource for the advisory group was:

Mr. John O'Brien
City of North Miami Transportation Manager
1855 NE 142nd St
North Miami, FL 33181
305-895-9883
jobrien@northmiamifl.gov

Also, the City of North Miami Advisory Committee on the Disabled provided input to develop the plan. The members of the Committee are:

Cherry L. Doctor
Douglas Hindmarsh
Jaylin Martin

Marie Samuels
Frantzdy Pierre Michel

DESIGN AND REGULATION OF IMPROVEMENTS

This Transition Plan identified physical barriers and unsafe conditions for pedestrians within the public right-of-way of the City. The goal is to improve accessibility and provide safe pedestrian facilities for all pedestrians. This Plan provides recommendations on how to achieve the heretofore mentioned goal. The implementation of the recommendations will require further evaluation and engineering design.

The City of North Miami will adhere to the ADA design standards put forth by the Florida Department of Transportation Design Standards, and requirements of the Florida Building Code. The technical provisions of the Design Standards as well as the Florida Department of Transportation's Plans Preparation Manual, as related to ADA accessibility to public facilities, is adopted by reference as part of this report. Reference to Americans with Disabilities Act Accessibility Guidelines (ADAAG) have been used to determine considerations for accessible design.

ADA SELF-ASSESSMENT

The following section details the self- evaluation results for the City of North Miami. Evaluations were undertaken in review of facilities related to public buildings including pedestrian facilities in the right-of way, curb ramps, employment effective communication and monitoring and reporting policies. The facilities assessment is divided in two parts. The first part is relates to Buildings and Facilities and the second part is barriers within the Public Right of Way.

All accessibility limitations and safety conditions were identified. An estimated cost for the remediation of those conditions is herein included. The following table summarize the estimated cost of remediation including the design and inspection fees. The estimated dates for completion of the remediation work are also provided.

Item	Estimated Cost of ADA Remediation	*Completion Schedule
Building and Facilities	\$8,897.00	(Short Term) 2019 to 2024
Public Right of Way	\$125,012.05	(Short Term) 2019 to 2024
Public Right of Way	\$125,249.80	(Intermediate Term) 2025 to 2029
Public Right of Way	\$184,290.48	(Long Term) 2030 to 2036
Sub-Total	\$443,449.33	
Design Fees	\$44,344.93	
Inspection Fees	\$88,689.87	
Grand Total	\$576,484.12	

* See the Completion Schedule Section

The following sections provide details in regards to the findings on Building and Facilities as well as within the Public Right of Way. The cost estimate was prepared using as a reference the FDOT Historical cost for the Area 13 (Miami-Dade).

BUILDINGS AND FACILITIES

The City of North Miami has performed an evaluation of ADA accessibility for existing public building. The City currently has 16 buildings or facilities which are ADA Compliant. After further evaluation the City was able to identify 7 buildings or facilities that would require remedial action under this ADA Transition plan.

The following is a summary of Government Buildings, Public Buildings and Facilities identified that would require ADA remediation along with a schedule for completion and estimated cost. The agency will prioritize and integrate corrections/ modification with planned alterations as well as with existing structures.

TRANSITION PLAN TABLE 1

See Table 1 in Appendix 1. This table summarize the findings on Buildings and Facilities.

The following section contains pictures related to the Buildings and Facilities self-assessment. The intent of the pictures is to in general illustrate the conditions found during the self-assessment. Each picture shows an address, coordinates (degrees, minutes, seconds) for its location and a short description indicating the name of the building or facility as well as a depiction of the finding (if any).

PICTURES (SELF-ASSESSMENT ON BUILDINGS AND FACILITIES)

Motor Pool Building
No ramp for men's
toilet room.

Motor Pool Building
No ramp for women's
toilet room.

Public Library
Proper access
provided.

Public Library
The partitions in the
toilet rooms have an
opening of 24".
Should 34" minimum.

Community Planning
and Development
Proper access
provided.

Parks and Recreation
Building
Proper access
provided.

Sans Souci Tennis Center
Proper access provided.

Alfred Besabe Park
Proper access provided.

William Lehman Park
Proper access
provided.

Clyde W. Judson
Community Center -
Kiwanis Park
Provide sidewalk to
allow access to
playground area.

BARRIERS WITHIN THE PUBLIC RIGHT OF WAY

An evaluation was undertaken during the months of February and March 2018 to address ADA accessibility for existing barriers and unsafe conditions within the public right of way in the City of North Miami. The following is a summary of curb ramps, sidewalks and pedestrian crossings identified that would require ADA remediation.

TRANSITION PLAN TABLE 2

See Table 2 in Appendix 2. This table summarizes the findings on Public Right of Way and in order to show the completion timeline, it was divided in three tables:

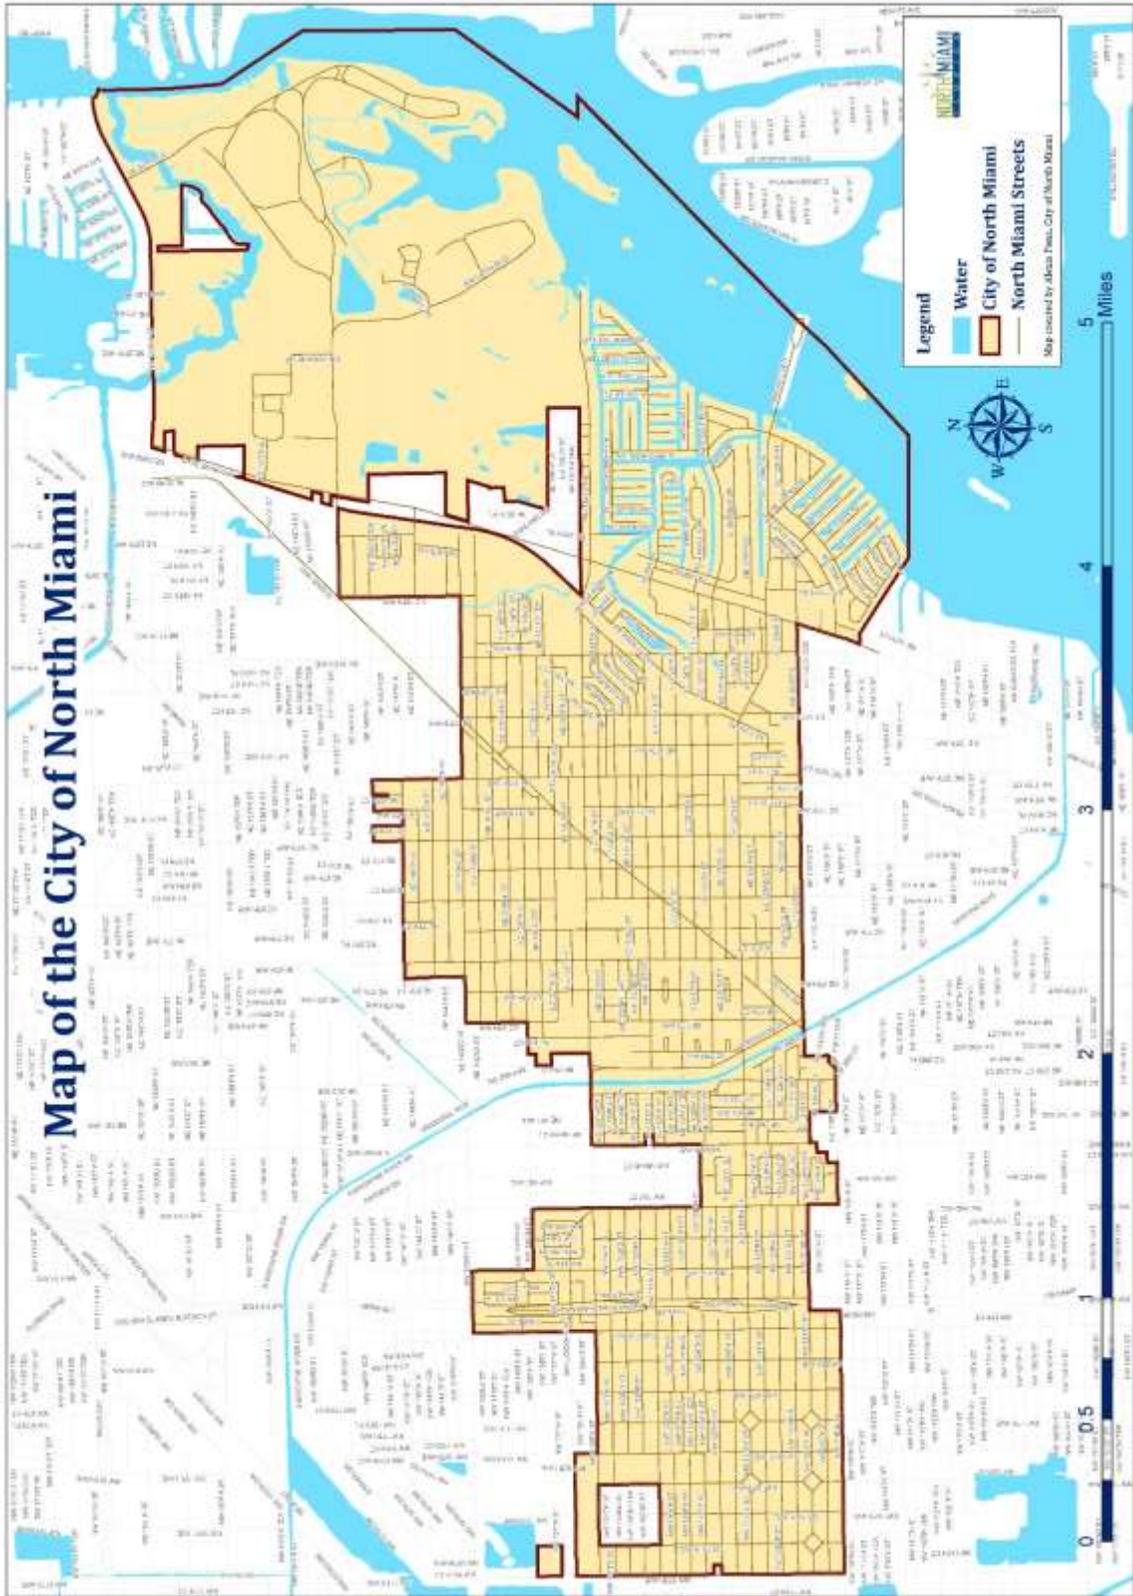

- Short Term Right of Way Improvements
- Intermediate Term Right of Way Improvements
- Long Term Right of Way Improvements

The following section contains a City Map and pictures related to the Public Right of Way self-assessment. The intent of the pictures is to in a general illustrate the conditions found during the self-assessment. Each picture shows an address, coordinates (degrees, minutes, seconds) for its location and a short description indicating the intersection shown as well as a depiction of the finding (if any).

A common identified finding is the lack of detectable warnings on most of the ramps at intersections. A detectable warning is standardized surface feature built in or applied to walking surfaces to warn of hazards on a circulation path. The Department of Transportation's ADA standards require detectable warnings on curb ramps (406.8).

Some neighborhoods do not have sidewalks. Even when from a generic standpoint it is desirable to have sidewalk on every community, there are many factors outside the scope of this assessment that need to be taken in consideration before making such recommendation. However, in some cases we identified that short segments of sidewalks are needed to complete a full path to a corner or to a City facility. On those cases, the construction of sidewalks was recommended.

No detectable warnings

Completion Schedule

The City is cognizant of the need to address accessibility at intersections within the municipal corporate limits, and will implement improvements as funds becomes available. The City will prioritize the improvements based on roadway hierarchy and safety considerations.

In implementation, the City will construct/improve curb ramps pursuant to the Florida Department of Transportation (FDOT).

The City will address deficiencies in access in the following ways:

- 1- The City will address the building ADA deficiencies within 5 years starting in fiscal year 2019-20.
- 2- The City is allocating \$25,000 a year to address the roadway/right of way ADA noncompliance issues starting in fiscal year 2019-20 (detectible warnings, concrete ramps etc.). This will be completed within 16 years.

Further, the City of North Miami is committed to ensuring that any development or acquisition of additional public buildings or properties with the City will undergo an evaluation to determine compliance with ADA Standards. If necessary, remedial actions would be undertaken to ensure full compliance with applicable federal, state and local statutes.

In terms of priority whenever the City starts improvements on a new period (fiscal year), priority will be given to the improvements needed in areas close to public facilities followed by the rest of the findings within that zone.

Record Keeping

The ADA Coordinator will maintain permanent records, which include, but are not limited to, copies of the ADA complaints and lawsuits and related documentation, and records of correspondence to and from complainants, and ADA investigations. The ADA Coordinator shall be responsible for conducting annual reviews of ADA records and updating the Capital Improvements recommendations as necessary.

Notice under the Americans with Disability Act

The City of North Miami does not discriminate on basis of race, color, national origin, sex, age, religions, disability and family status. Those with question or concerns about nondiscrimination, those requiring special assistance under the American with Disabilities Act (ADA) or those requiring language assistance (free of charge) should contract Mr. Arthur H. Sorey, III at (Title VI/Nondiscrimination Coordinator or Public Information Office at 305-895-9888 or email address asorey@northmiamifl.gov).

Grievance Procedures

1. An individual, on behalf of themselves or another individual, or an organization on behalf of an individual, who believes that the City of North Miami is not in compliance with the ADA may file an allegation of noncompliance with the City.
2. An allegation of noncompliance shall be filed with the:

Arthur H. Sorey, III
Deputy City Manager
776 NE 125th Street
North Miami, Florida 33161
Phone: (305) 893-6511, Ext. 12102

Such allegations shall be made in writing. When an allegation cannot be made in writing due to an individual's disability, the City shall make reasonable accommodations, as necessary, to allow an individual the opportunity to make an allegation.

3. Upon receipt of an allegation of noncompliance, the Deputy City Manager shall, within fifteen (15) working days, conduct and conclude an investigation into the allegation. The Deputy City Manager shall report his findings, in writing (and other means, if necessary), to the individual or organization making the allegation.
4. If the Deputy City Manager determines that the allegation of noncompliance is affirmative, the Deputy City Manager shall take the action necessary to remedy the state of noncompliance. This action shall also be reported to the individual or organization making the allegation in a manner consistent with the report of findings.
5. If the individual or organization determines that the resolution of the allegation of noncompliance by the Deputy City Manager is not satisfactory, that individual shall have the right to appeal to the City Manager. Such appeal shall be taken by filing with the City Manager within fifteen (15) working days after the Deputy City Manager's report of findings has been mailed, or otherwise reported, to the individual or organization. Such appeal and report of appellate findings shall be made in a manner consistent with this administrative regulation. The decision by the City Manager on such appeal shall be final and conclusive.

NOTICE OF GRIEVANCE PROCEDURE

A copy of the administrative regulation AR 1-53, shall be furnished promptly to all individuals or organizations requesting a copy of such at no charge to the individual or organization.
